1. OBJETO DEL DOCUMENTO

El objeto del presente documento es realizar un informe de auditoría correspondiente al expediente de contratación PA286/21: **Servicio Integral de Vigilancia y Seguridad en el Hospital Vital Álvarez Buylla de Mieres.**

Para la elaboración del presente informe se ha tomado como base la información de auditoría generada por la plataforma.

2. ESTRUCTURA DEL EXPEDIENTE

El expediente de contratación PA286/21 presenta la siguiente estructura:

- **Tipo de procedimiento:** ABIERTO.
- **Tipo de contrato:** SERVICIOS
- **Fecha de publicación:** 23/03/2021
- **Fecha fin de plazo de presentación de ofertas:** 15/04/2021 15:00 horas.
- **Fecha de apertura criterios no cuantificables:** 16/04/2021 13:00 horas.

El expediente está estructurado en los siguientes sobres:

Sobre 1 (Mesa administrativa)

- DEUC
- Anexo II. Uniones Temporales Empresas
- Empresas Extranjeras
- Anexo III. Empresas Vinculadas
- Anexo VII. Compromiso adscripción de medios

Sobre 2 (Mesa de criterios no cuantificables)

- Memoria Descriptiva de la prestación del servicio de vigilancia y seguridad

Sobre 3 (Mesa de criterios no cuantificables)

- Anexo V. Proposición Técnica - Aspectos valorables mediante aplicación de fórmulas
- Documentación acreditativa

Sobre 3 (Mesa de criterios cuantificables)

- Anexo VI. Proposición Económica

3. REGISTRO DE OFERTAS

SABICO SEGURIDAD, S.A.

EULEN SEGURIDAD, S.A.

SECURITAS SEGURIDAD ESPAÑA S.A.

URBI SEGUR DE SEGURIDAD, S.L.

SERVECOSEGURIDAD

4. SITUACIÓN PREVIA

El día 16 de Abril de 2021 se pone en contacto con el servicio de SOPORTE Beatriz Herrero Álvarez debido a que tras la realización del descifrado de las ofertas del acto de criterios no cuantificables, el órgano de contratación detecta que en la apertura de los sobres de dicha oferta, se ha descifrado documentación que debería haberse realizado en el acto de criterios cuantificables.

La causa de esta situación es debida a que en la configuración de los sobres del expediente se crearon dos sobres denominados "Sobre 3" y uno de ellos se asignó al acto de criterios no cuantificables.

Antes de darse cuenta de esta situación se abrió la documentación que no correspondía a este acto de la empresa SABICO SEGURIDAD S.A

Desde el órgano de contratación se detuvo el acto de apertura y se explicó la situación al equipo de soporte para ver las posibilidades de asegurar que la documentación descifrada en el acto que no correspondía, no sea accesible para el órgano de contratación hasta la apertura de la mesa de criterios cuantificables.

5. CONCLUSIÓN FINAL

Una vez analizados los antecedentes, se llegan a las siguientes conclusiones:

Volver a cifrar los documentos hasta la siguiente mesa de contratación, no se considera viable debido a que es un proceso que debería realizarse fuera de la aplicación y que implicaría modificaciones en la base de datos de la plataforma que podrían provocar errores de integridad en el expediente.

El sistema guarda trazas de auditoria en fichero, de las operaciones de descarga de la documentación de la ofertas una vez descifradas. Dicha auditoria indica el usuario que lo hace y el documento que se descarga. Por lo que se pueden auditar dichos accesos y verificar que ningún miembro del órgano de contratación ha accedido a la documentación descifrada que debía haberse abierto en la siguiente mesa de contratación, tras el acto de apertura de la mesa de criterios no cuantificables, en la que solo se abrió la documentación de SABICO SEGURIDAD S.A.

6. MEDIDAS A ADOPTAR

El equipo de soporte auditara estos accesos hasta el día de la apertura de la mesa de criterios cuantificables para controlar que no haya ningún acceso a estos archivos

Por se han revisado las trazas de logs de los días 16, 17, 18, 19 y 20 de Abril, encontrándose las siguientes evidencias
